About This Game

Explore the isometric madness of a pseudo-vector WireNet, latest retro-VR technology to hack neuro-cybernetic systems.

FEATURES

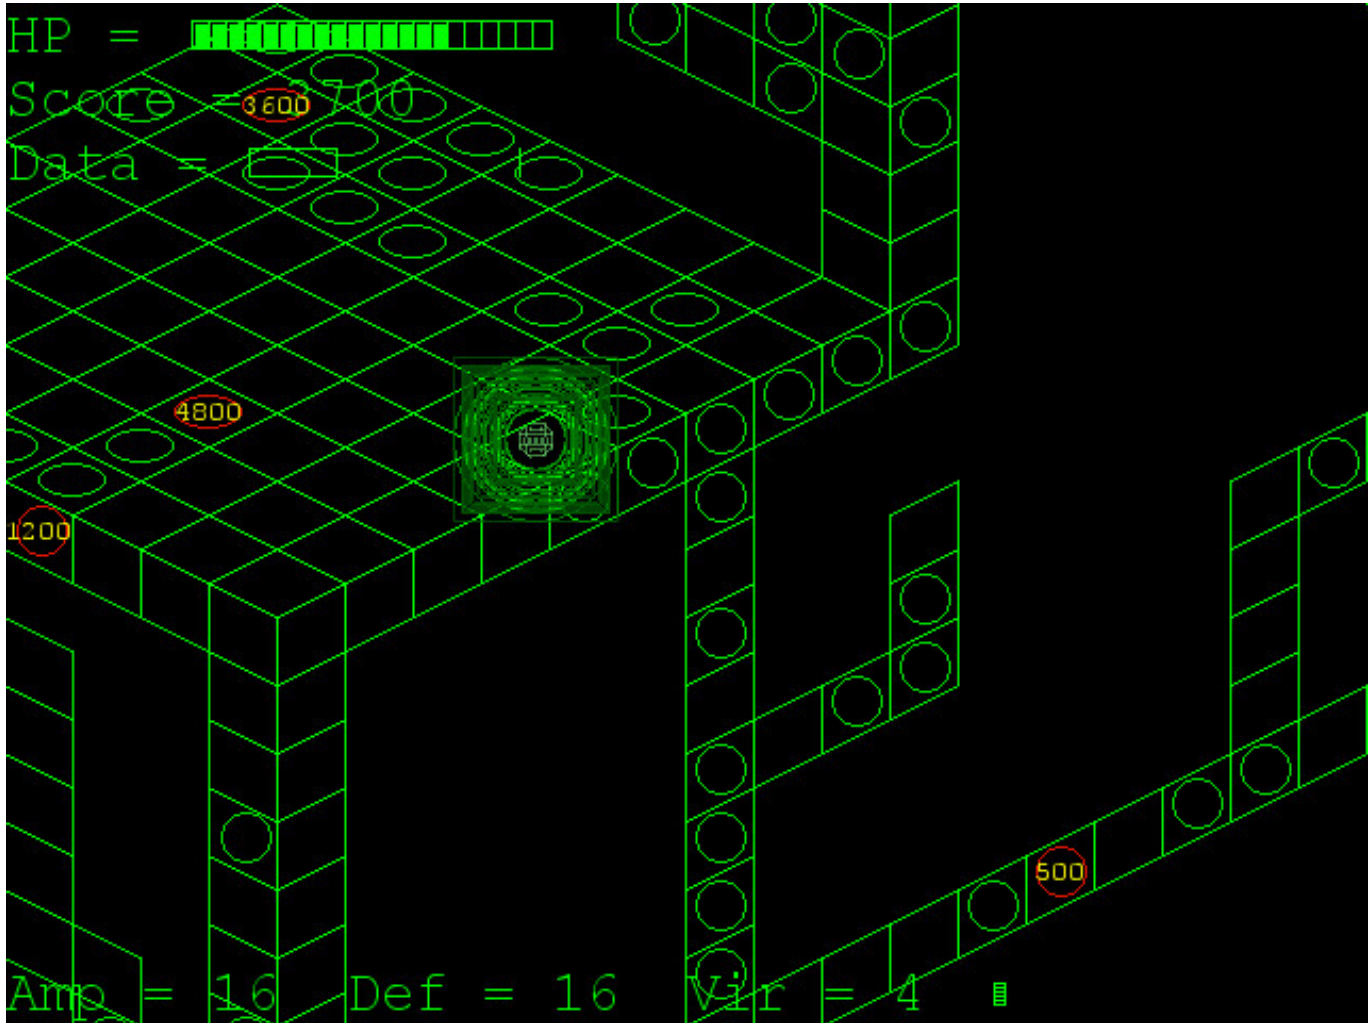

- 5 levels of semi-random design;
- Side-scrolling shooter action mixed with careful positioning to collect all the necessary data points;
- Change the color mode to gain bonuses in certain areas;
- Enemies and bosses are expecting you and will do their best to stop the network intrusion;

-
- Some data points contain viruses. Powerful viruses make you weaker, but weak viruses make you stronger!
